

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

## Front Cover:

**Targeted sonogenetic modulation of GABAergic interneurons in the hippocampal CA1 region in status epilepticus**

*Tao Xu et al. pp.6373*

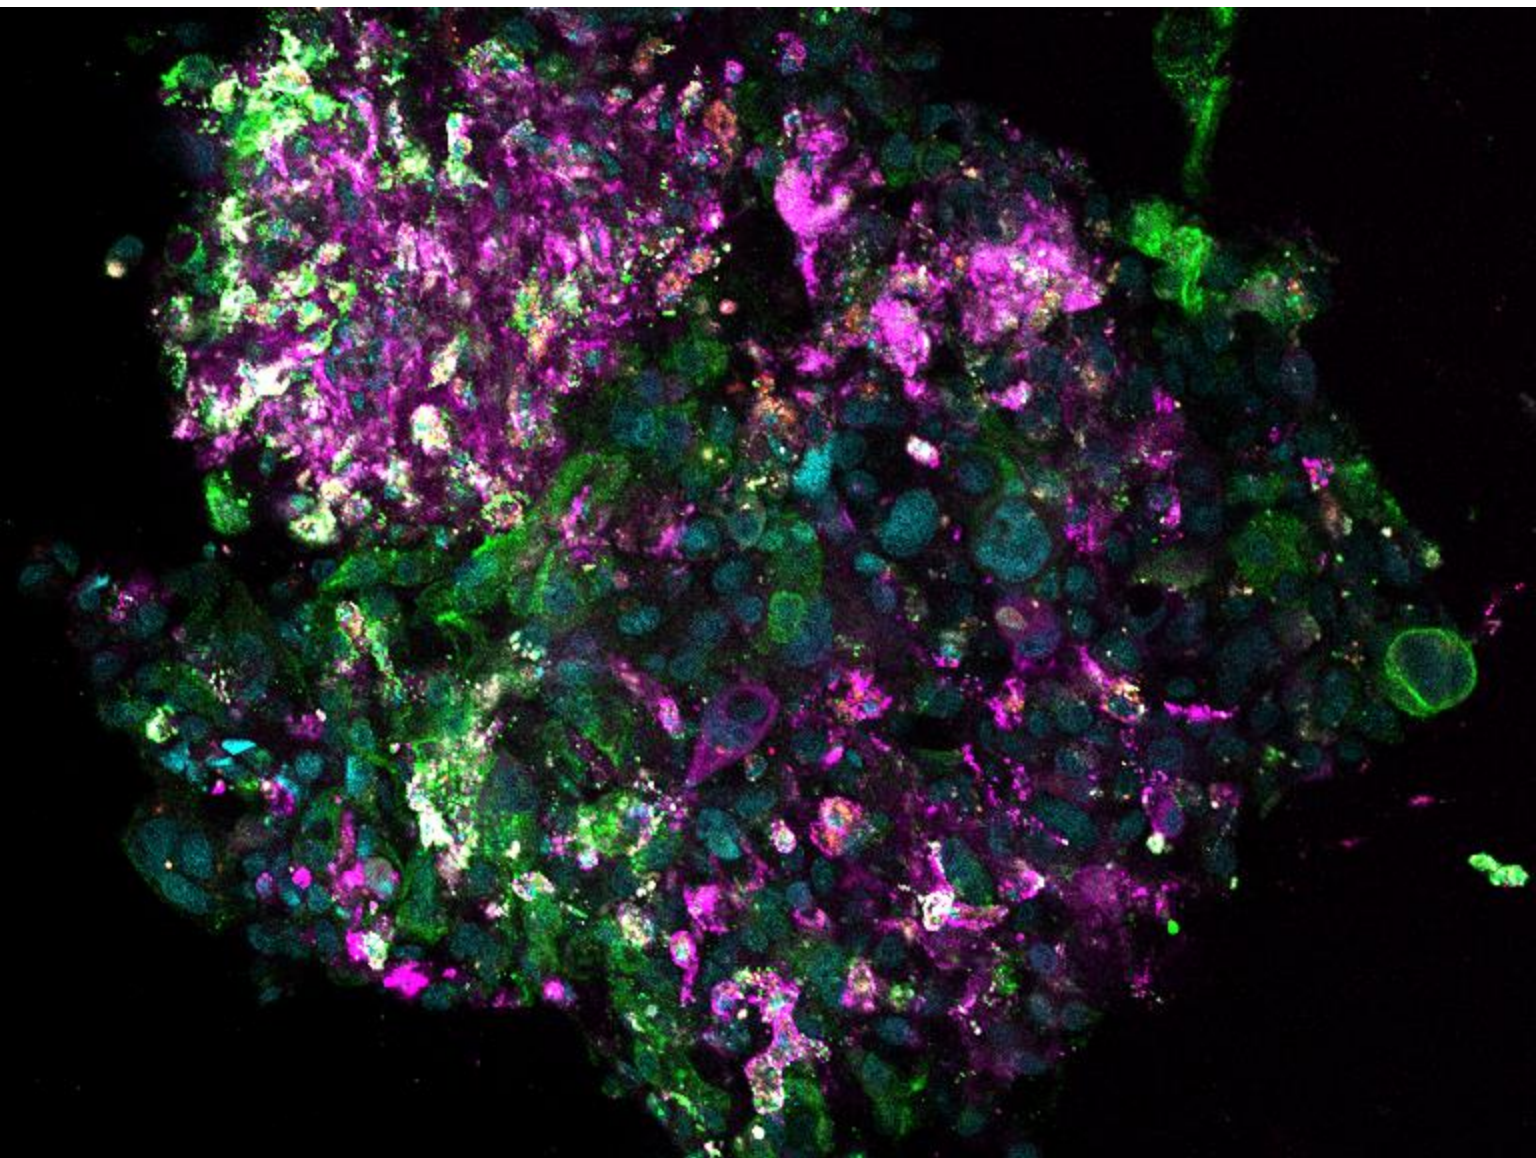

IVYSPRING  
INTERNATIONAL PUBLISHER

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

## Inside Front Cover:

**Tumor-derived extracellular vesicles convey solute transporters to induce bioenergetic dependence shift contributing to treatment resistance**

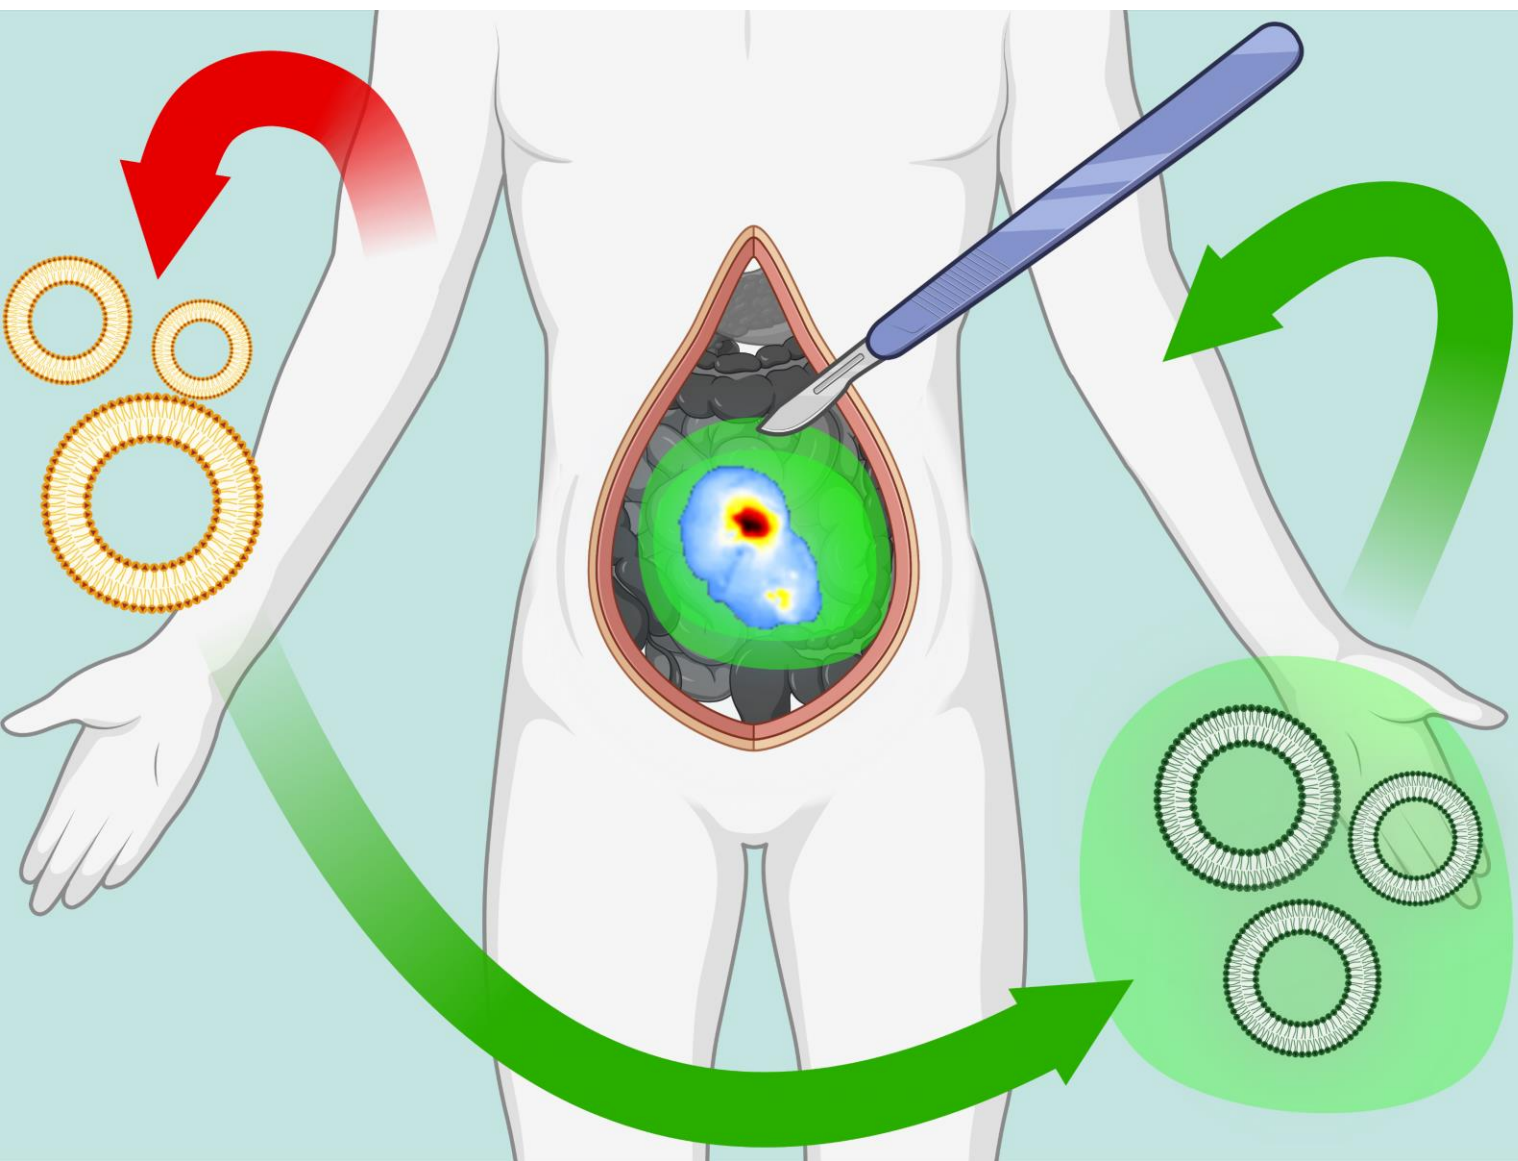

*Jayshree Hirpara et al. pp.6350*

**IVYSPRING**  
INTERNATIONAL PUBLISHER

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

## Inside Back Cover:

**Preclinical pharmacology of patient-derived extracellular vesicles for the intraoperative imaging of tumors**

*Alessandro Villa et al. pp.6301*

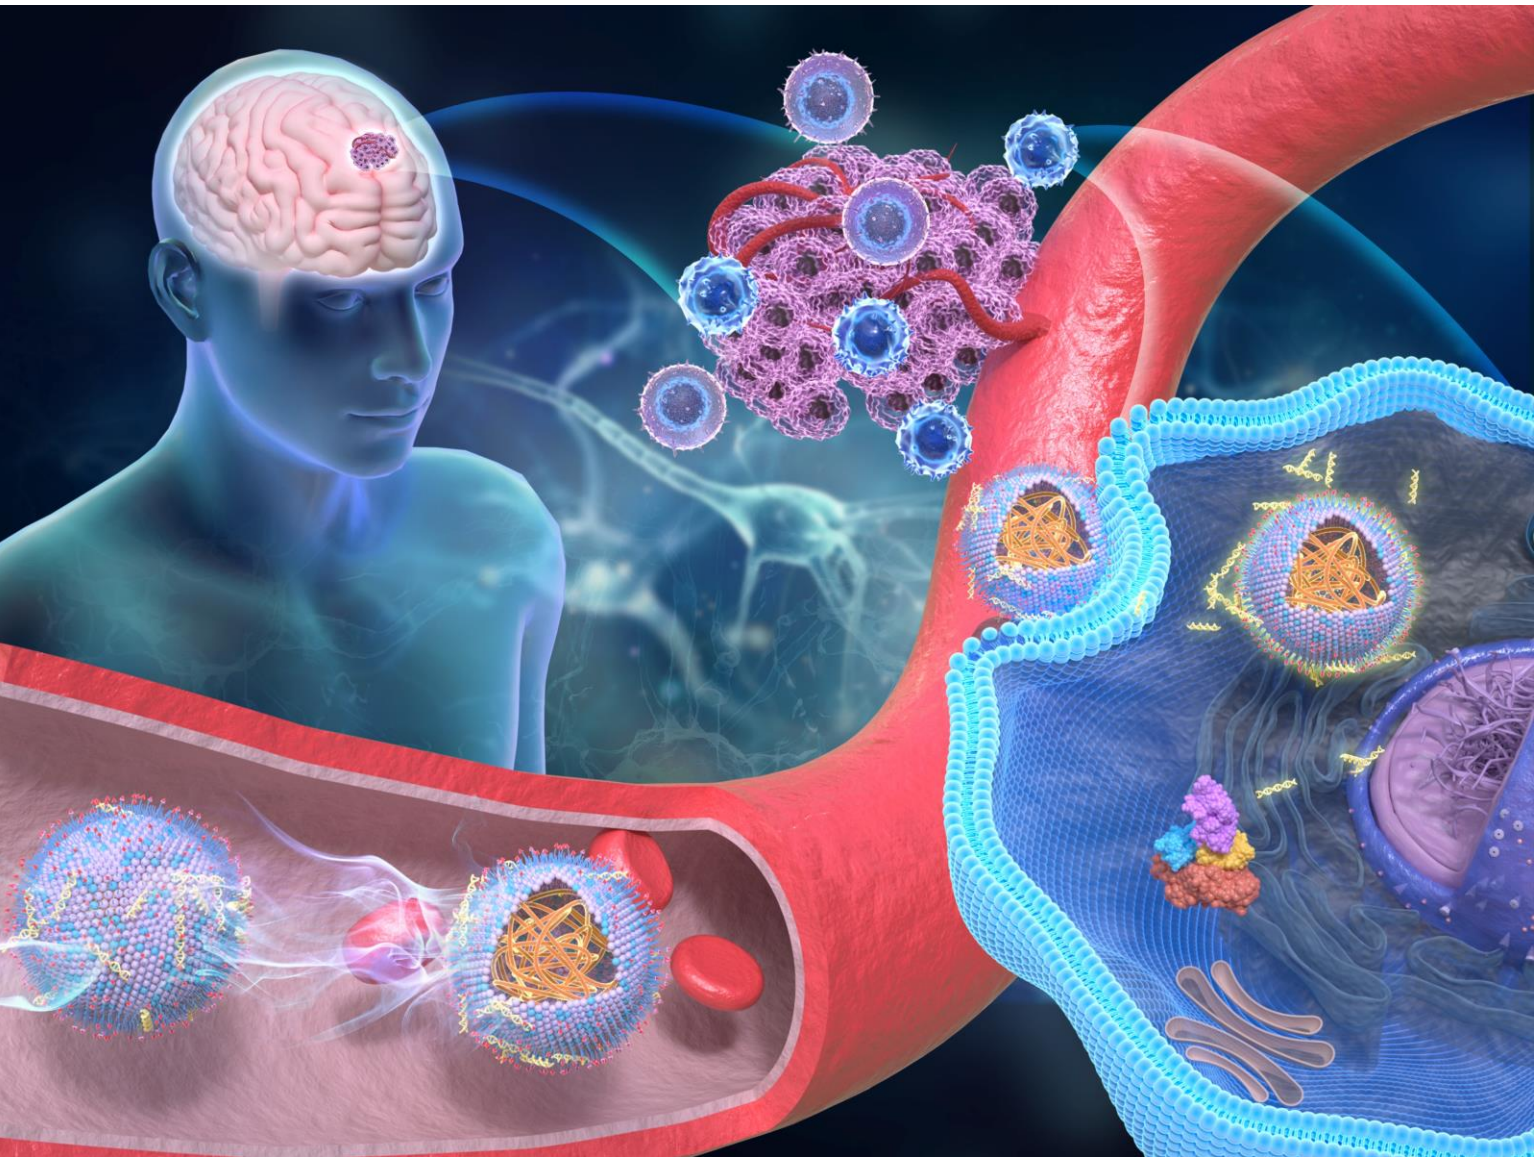

**IVYSPRING**  
INTERNATIONAL PUBLISHER

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

## Back Cover:

**Hypoxia-driven M2-polarized macrophages facilitate the epithelial-mesenchymal transition of glioblastoma via extracellular vesicles**

*Liang Liu et al. pp.6392*
