Corrected article: *Theranostics* 2025; 15(10): 4823-4847. doi: 10.7150/thno.108875.

This is a review paper. All the experimental data were cited from the published literatures.

1. The Figure 5 on page 4831 is inappropriate, therefore this Figure 5 should be replaced by a new one, and the corresponding figure caption should also be changed. The new Figure 5 and its caption are as follows.

**Figure 5.** Schematic illustration of MΦM-functionalized nanotherapeutics to modulate tumor immunotherapy

A phrase “(Figure 5)” should be added at the end of the last sentence of first paragraph on page 4830, that is:  
 The original sentence: Here we discuss different strategies and methodologies of MΦM-coated nanotherapeutics for cancer immunotherapy.

The revised sentence: Here we discuss different strategies and methodologies of MΦM-coated nanotherapeutics for cancer immunotherapy (Figure 5).

2. A phrase “for multipurpose (Figure 2)” should be added at the end of the last sentence on page 4825:

The original sentence: but they can also evade the immune system.

The revised sentence: but they can also evade the immune system for multipurpose (Figure 2).

The authors are sorry for the Corrigendum.
